All Purpose Cleaning Wipes
100 pcs per Container

Product Overview

Eco Sanitizer All Purpose Cleaning Wipes use the power of hydrogen peroxide to create a non-toxic, cleaning wipe that can be used from floor to ceiling including hard surfaces, floors, carpets, and washrooms. Unlike chlorine bleach, hydrogen peroxide is simply water with an extra oxygen molecule creating an oxidizing multi-purpose cleaner that will help you to achieve outstanding cleaning performance, and you can feel good knowing that you are using a safe, non-toxic, ECOLOGO Certified solution that is kind to the environment while it cleans.

1 L
Trigger Spray

Product Overview

SteriKleen is a virucidal disinfectant solution that is an approved ready-to-use, concentrated, food safe, multi-purpose, mildly alkaline detergent engineered to effectively treat a wide variety of surfaces requiring sanitizing, disinfecting, or odor reduction. It is used to disinfect any hard surface and is rated as effective for the destruction of a wide range of viruses and pathogens. It has a 60 second kill time.

Use

This quaternary ammonium compound is typically used in food processing and industrial areas to disinfect and clean hard surfaces. It is an effective one step sanitizer for any premises or industry with hard contact surfaces that requires industrial level sanitization and disinfection. Effective for a fast, efficient solution to large area crisis management.

Recommended for use in, but not limited to:

- Hospitals & Care Facilities
- Public & Private Transportation Vehicles
- Food Processing Plants
- Garbage & Recycling Facilities
- Containers & Equipment

Victory Electrostatic
BackPack Sprayer (cordless)

Product Overview

Our Professional Cordless Electrostatic BackPack Sprayer is designed to allow the professional to cover up to 23,000 square feet on a single tank of fluid (coverage per tank is determined by internal testing using flow rate and particle size). In addition, it is designed to save time and labor, spray less liquid, and cover more surfaces. The patented technology provides an electrical charge to solutions, allowing them to wrap conductive surfaces with an effective and even coverage. Double-charged particles envelope all conductive surfaces – shadowed, vertical and underneath.

Use

Victory's patented electrostatic charge penetrates chemical providing a thin, even spray pattern on all surfaces. It includes a removable easy refill HDPE tank that holds 2.25 gallons of chemical, allowing you to coat up to 23,000 square ft. The cordless backpack allows for convenience and for effortless movement from room to room. The 3-in-1 nozzle allows you to set particle size to match your application and the 4ft hose with a quick release valve allows for comfortable reach and maximum maneuverability.

Use With

Sterikleen Vital Oxide

Cobalt Backpack Fogger
(Corded)

Product Overview

Designed for a wide range of fogging applications, the Cobalt Fogger delivers droplets that are actively attracted to surfaces, including the back, sides and crevices of surfaces resulting in a thorough disinfection. Use with Vital Oxide and SteriKleen Disinfectant Liquids for best results.

Features

- **Economical:** Fogging uses up to 60% less product with better coverage than a conventional sprayer
- **Convenient:** Power on/off and flow control right on the handle lets you easily change the droplet size from 10 - 50 microns VMD
- **Fast Application:** Cover large areas in less time
- **Comfortable:** Spray all day with upgraded padded back and shoulder straps

Uses

- Hospitals
- Medical Clinics
- Airports
- Public Transportation
- Aircraft
- Schools
- Daycares
- Hospitality & Hotels
- Office Buildings
- Veterinarian Clinics
- Athletic Facilities
- Correctional Facilities

Specifications

- Capacity: 10 Litres
- Particle size: 10-50 Micron VMD
- Spray range: 1-3 meters
- Power: 110V, 1400W
- Up to 30,000 sq ft per 10L tank
- 3,000 sq ft per 1L of chemical

Automatic Sanitizer Dispenser
With Built In Thermometer**

- Made with High quality Stainless Steel, premium looking dispenser.
- Touchless sterilizer: The precision infrared sensor integrated in the automatic soap dispenser can filter out the liquid in a detection time of 0.5 seconds to prevent the spread of bacteria
- Fast disinfection: The non-contact hand disinfection machine with automatic induction mode is used to atomize the hand disinfectant, with which harmful substances on the hands can be disinfected and removed quickly and easily
- Plug-in and Battery operated: This versatility helps place this disinfectant machine in any location without worrying about an electrical connection.
- Effective disinfection: The non-contact hand disinfection system with automatic sensors can disinfect hands quickly and easily and eliminate cross-contamination.
- Easy to refill

- Made with High quality ABS plastic, premium looking dispenser.
- Touchless sterilizer: The precision infrared sensor integrated in the automatic soap dispenser can filter out the liquid in a detection time of 0.5 seconds to prevent the spread of bacteria
- Fast disinfection: The non-contact hand disinfection machine with automatic induction mode is used to atomize the hand disinfectant, with which harmful substances on the hands can be disinfected and removed quickly and easily
- Plug-in and Battery operated: This versatility helps place this disinfectant machine in any location without worrying about an electrical connection.
- Effective disinfection: The non-contact hand disinfection system with automatic sensors can disinfect hands quickly and easily and eliminate cross-contamination.
- Easy to refill

- Automatic Soap Dispenser Thermometer: This product has a novel design. The temperature sensor and the liquid outlet design are combined into one. You only need to align the thermometer probe and the liquid outlet with the palm of your hand. At the same time, it detects the temperature and automatically releases the hand sanitizer without touching the skin. Effectively reducing the spread of bacteria.
- Large Capacity: 1000ml / 35.2 oz capacity container, suitable for use of various disinfectant liquids, liquids and hand sanitizers.
- Adjustable °C/°F : Switch Fahrenheit and Celsius. If the temperature is out of the normal range, the non-contact digital thermometer will sound alarm & display a red light to let you know that a fever has been detected
- Easy Installation: We provide drilling free sticker X2 (Tripods need to be purchased separately). This decorative wall mounted auto soap dispenser is suitable for industrial, school or library. Wall soap dispenser can highly save the space and avoid mass bottles occupying the desk.
- Battery & Plug in Capable : the power adapter's power jack is on the right side and can be used at any time【Power adapter not included】.

Product Overview

Self-standing or mountable plexiglass shields are a solution to creating physical protective barriers between individuals.

The mountable shields are easy to install with clear double-sided tape for attaching to any desk or counter. They are easy to remove without scarring the surface when you need to take them down or move them to another location.

The self-standing shields require no installation and can be used anywhere as dividers or walkway barriers. The plexiglass is easy to clean with dish soap and lukewarm water, using a soft cloth.

Use

- Retail - Keep Employees & Customers Safe
- Restaurants – Patrons & Servers
- Office – Co-workers & Visitors
- School – Students/Classmates & Teachers

Specifications

- Shield Material – Clear acrylic
- Self standing or mountable Cutout – with or without
- Leg material – Powder Coated Steel (black)
- Hardware & Tools – included with each kit

More Sizes Available!
Ask About Custom Sizes.

Features

Flexibility – A Variety of sizes. Floor standing or counter mountable

Free Standing Shields – Require no installation and can be used anywhere

Mountable Shields - Are easily installed in minutes without the need of specialized tools. Table barriers use metal supports that are secured using clear double-sided tape and adjustable knobs to adapt to table or counter thickness. They can eventually be removed without scarring the table surface

Adaptable - The shields can be moved or easily re-positioned

Cleanability – The plexiglass is easy to clean with dish soap and lukewarm water

ASTM Masks

ASTM level 1 masks are the general standard for both surgical and procedural use.

ASTM Level 2: moderate barrier protection for low-to-moderate levels of aerosols, sprays and fluids.

ASTM Level 3: maximum barrier protection for any situation that has the potential for exposure to heavy levels of aerosols, sprays and fluids.

ASTM RATINGS - ASTM International sets the preferred standard in healthcare for best practices and requirements for performance and materials in masks. They follow FDA guidelines in the four main areas of Fluid Resistance, Differential Pressure, Filter Efficiency and Flammability.

Non-Medical Masks

Non-medical masks are for the general public or use in non-healthcare related environments. They should be worn when there is low risk of exposure, outside of healthcare facilities, and/or when social distancing may be difficult.

ASTM N95
Disposable Respirator - 5 Layer

KN95 Face Mask
10 pcs per box

Product Overview

ASTM N95 5 Layer Respirator

Provides at least 95% filtration efficiency against solids and liquid aerosols and is strongly resistant to oils.

Specifications

- Adjustable nose clip helps reduce fogging, helps ensure a better seal
- Non-valve, disposable respirator
- 2-strap design with 4-points staple provide a secure fit
- Soft nose foam reduces eyewear fogging
- Compatible with a variety of safety eyewear and hearing protection
- Cup-style respirator

Non-Woven Fabric 30 GSM Polyester 220 GSM Melt Blown Filter 35 GSM Melt Blown Filter 35 GSM Polyester 220 GSM

KN95 Face Mask

A step above a surgical mask that provides more respiratory protection than a surgical or cloth mask and that can be used in certain clinical settings. Five layers of high quality non-woven, hot air cotton using regulatory melt-blown fabric technology and rated to capture 95% of 0.3-micron particles. KN95 masks do a good job of preventing virus transmission and have strong breathability standards.

*Available in black or white

"Quality Products. Quality People."

Kids Surgical Mask
ASTM Level 3
50 pcs per Box

Product Overview

Premium quality Pediatric 3-ply surgical masks manufactured in Canada with materials that adhere to or exceed regulatory standards of ASTM for surgical-grade mask construction. Approved by Health Canada these masks provide the highest standards and are a good fit for children or adults with smaller, petite faces. Created with superb craftsmanship, the masks provide lightweight comfort, ease of breathability, durability, germ filtration & convenient packaging.

ASTM Level 3 Rated: ASTM International sets the preferred standard in healthcare for best practices and requirements for performance and materials in masks. They follow FDA guidelines in the four main areas of Fluid Resistance, Differential Pressure, Filter Efficiency and Flammability.

Comfort & Durability:

- Ear loops are 40% wider than traditional 3-ply face masks.
- Shorter ear bands lengths that are designed for smaller faces; fewer need for knots
- High quality elastic using spandex(70%) and nylon(30%)
- Smaller sized face masks provide a more comfortable & formed fit
- The hydrophilic non-woven fabric on the inside feels soft & helps wick moisture off the face
- Odourless with no strong scents. All raw material used are new & non-recycled

Filtration:

The 98% BFE & PFE filtration materials are medical grade, as used in health care environments and help to block the small germ particles. See "Specifications" section for full details.

Specifications

- ASTM Level 3
- BFE(Bacterial Filtration Efficiency) ASTM F2101-19: $\geq 98\%$

Product Overview

Our new Paw Sanitizer is a disinfectant for dog and cat paws that can help eliminate germs, viruses, and odors from your dog after each walk or after your cat has been outside. Your dog steps on surfaces during their walks that can contain all sorts of harmful germs, then carries those germs into the house, floors, furniture, and beds. The Paw Sanitizer allows you to clean off your pet's paws before they bring bacteria into your home. Eco's Paw Sanitizer is also classified as an antiseptic, is safe on human skin and can be used to disinfect hard surfaces around your pet.

Use

- Ideal for situations when washing pet paws with soap and water is not available or convenient
- Apply to paw or affected area and let dry naturally
- May be rubbed onto affected fur areas with a dry wipe or cloth
- Avoid contact with eyes
- Apply as needed
